

Economy is hobbled by covid19

**Why are we paying
the same high
property tax ?**

**Ask your Municipality to slash
property and other taxes**

Canadian economy is crippled due to lockdowns. People are hurting. Everybody has to tighten belt and learn to make do with less.

That should not only apply just to the people, but also to our government, such as our municipality.

Municipalities therefore must learn to slash their running expense and slash taxes it collects from us residents.

If you agree that property and other municipal taxes must be reduced, please consider joining up with like minded people in your community, or contact/ call:
