

The Choice used to be so Obvious

Earlier this year, a group of moms, scientists and environmentalists met with the E.P.A over concerns that residues of the popular herbicide, RoundUp, had been found in **Breast Milk!** Concerned Canadians watched and decided to create a grassroots model to continue and expand the important work that was started.

NATIONWIDE GLYPHOSATE TESTING

We're not waiting for **Health Canada** or **Monsanto** to do the right thing and neither should **YOU!**

If you're interested in joining the movement as a volunteer, or a regional coordinator, or a candidate for testing yourself, please contact: glyphosate.testing@gmail.com

**IF OUR GOVERNMENT
WOULD DO THE RIGHT
THING, WE WOULDN'T
HAVE TO!**

**THANK-YOU
FOR YOUR
SUPPORT!**

If you'd like to contribute to our campaign, please visit our indiegogo page:
